

COUNCIL OF MOTORING CLUBS OF WA (INC.) - MEMBERSHIP INFORMATION

The Council of Motoring Clubs of WA (Inc.) is an incorporated body having the following objects:

- To foster the restoration, preservation and use of historic and collectible vehicles.
- To encourage the affiliation and closer relationship of motoring clubs in Western Australia.
- To promote events in which member clubs can participate.
- To represent the common interests of member clubs in dealings with elected members of Parliament, regulatory bodies, companies, organisations or individuals.
- To assist member clubs in their provision of appropriate insurance cover.
- To disseminate and share information of interest to and assist with the provision of services that may be of benefit to member clubs.

Membership of the Council is open to motoring clubs incorporated under the *Associations Incorporation Act 2015* whose constitution is consistent with the Council's objects, particularly the restoration, preservation and use of historic and collectible vehicles.

All member clubs are entitled to a maximum of two delegates per club with only one vote per club. Delegates may not represent more than two member clubs at any one time. The Council's management committee, elected from and by member club delegates, is responsible for managing the Council's affairs.

Clubs whose constitution does not meet the Council's eligibility requirements may become Associate Members. These clubs may still appoint delegates as above; however these delegates do not have voting rights, nor can they be elected to the management committee.

Membership fees are currently \$75 per club for 2022/23. The fees for 2023/24 will reduce to \$70 per annum for clubs having 100 or more memberships and \$50 for clubs having fewer than 100 memberships, with the renewal due and payable on 30th June 2023.

The Council's General Meetings are held every two ('even') months, usually at the Alf Faulkner Hall at the corner of Mary Crescent and Ivanhoe Street in Eden Hill, on the 3rd Monday at 8.00pm.

Concessional vehicle licencing is available to motoring clubs approved by the Department of Transport: for unmodified vehicles over 25 years of age under the *Veteran, Vintage, Post Vintage and Invitational* ('Code 404') Scheme; or for vehicles built prior to 1990 and street rods under the Concession for Classics ('C4C') Scheme. The Code 404 Information Handbook (downloadable from the CMC website) and the C4C Code of Conduct (downloadable from the Department of Transport website) detail the terms and vehicle use conditions for these Schemes respectively. The Council (and its predecessor the Combined Car Clubs of WA) has worked with the Department of Transport over many years to develop, review and revise the Code 404 Handbook and continues to do so on behalf of all approved motoring clubs.

The Council also presents the annual Classic Car Show which showcases WA's great variety and number of historic and classic vehicles and which provides an opportunity for the public to appreciate our motoring heritage.
